Wagenborg Foxdrill

#### MAINTENANCE SERVICES

# Reduce Maintenance Costs and Increase Asset Reliability

Wagenborg Foxdrill provides comprehensive maintenance services to drilling contractors and other equipment operators and owners. Our maintenance specialists have a wide range of skills and a wealth of experience in the maintenance of oilfield and drilling equipment.

## Why Wagenborg Foxdrill?

- ✓ **Multidisciplinary one-stop shop**
- ✓ **Full maintenance management services**
- ✓ **We get it done!**

PROJECT STORY

# Top Drive Overhaul Completed in Record Time

When a top drive of a drilling rig fails in the middle of a job, every minute counts. So the Foxdrill team sprang into action for a rapid overhaul of this faulty top drive.

Our expert mechanics quickly diagnosed the problem - worn main shaft bearings - and discovered other top drive parts that needed replacing. With the clock ticking, the team worked at full speed, securing the necessary parts and completing a complex rebuild in just 1.5 weeks!

While the top drive was being overhauled, a second team carried out maintenance on the rest of the rig to ensure no future downtime.

Watch the time-lapse video

What our customers say

**"Thank you for the swift overhaul, resulting in minimum downtime for our drilling operations. Foxdrill once again proved to be a partner we can rely on!"**

## PROJECT STORY

# Efficient Bearing Replacement on Jack-Up Drilling Rig

**How do you ensure that maintenance of the drilling equipment on a jack-up rig is carried out as efficiently as possible so that the rig is quickly available for operation? Wagenborg Foxdrill's solution was to bring their mobile workshop to the site.**

Foxdrill's maintenance experts combined rope access technology with their well-equipped mobile workshop to replace the bearings of the rig's block sheaves. The rope access specialists dismantled the sheaves at height, after which the bearings could be replaced directly on site. An efficient solution!

As the team was already on the platform, they were able to carry out any additional maintenance that was deemed necessary in addition to the planned work. The combination of mechanical and rope access enabled this flexible and efficient approach.

## What our customers say

**"Foxdrill climbers' professionalism and proactive maintenance approach greatly contributed to the project."**

## FIELD SERVICES

# Field Services

**Wagenborg Foxdrill's expert maintenance team is also available for on-site maintenance work. This is an efficient solution to ensure the uptime of your equipment.**

The Foxdrill maintenance experts have extensive knowledge and years of experience in on-site maintenance of all types of oilfield and geothermal equipment, such as:

- drilling rigs
- wireline units
- handling / lifting equipment
- high pressure equipment
- other types of oilfield equipment

## Maintenance Management Services

With our field services, state-of-the-art workshop facilities and extensive maintenance expertise, we offer a **Full Maintenance Management solution** that takes care of all your maintenance needs.

## OUR SERVICES

# Maintenance Services

**At Wagenborg Foxdrill, we provide a comprehensive range of maintenance services to drilling contractors and other equipment operators and owners. Our maintenance services include but are not limited to:**

- ✓ Inspection, overhaul, cleaning, repair & equipment upgrade
- ✓ Customer-specific equipment engineering
- ✓ ATEX inspections
- ✓ NDT inspections
- ✓ Drilling equipment inspections according to API
- ✓ ISO/IEC 17025 testing and calibration
- ✓ Pressure testing up to 20,000psi
- ✓ On-site maintenance

## Our Workshop Facilities

- Maintenance workshop 1: 575 m<sup>2</sup>
- Maintenance workshop 2: 475 m<sup>2</sup>
- Test facility: 480 m<sup>2</sup>
- Yard area: 7.000 m<sup>2</sup>
- Gantry cranes up to 10 tonnes
- Forklifts up to 20 tonnes

# Wagenborg Foxdrill: Your Trusted All-round Service Partner

With a proud history and extensive experience dating back to 1967, Wagenborg Foxdrill has evolved from a drilling contractor to a versatile service provider for installation, assembly, inspection, decommissioning and maintenance activities in the energy industry.

## What we believe in

- Unique expertise of our team
- First time right
- Safety at all times
- Inventive and innovative solutions

**Wagenborg Foxdrill. For sure.**
